

VEDALAKSHMI B S

+91 8129972212 | vedalakshmi777@gmail.com | LinkedIn | GitHub

PROFILE

Computer Science undergraduate with strong interest in software development, problem solving, and full-stack technologies. Skilled in Java, Python, and web development with hands-on experience through academic projects and collaborative learning. Passionate about building practical applications and continuously improving technical skills.

EDUCATION

Muthoot Institute of Technology and Science

Bachelor of Technology in Computer Science and Engineering — **CGPA: 8.96**

Kochi, Kerala

2023 – Present

Nanminda Higher Secondary School

12th Standard (Higher Secondary Education) — **Percentage: 98.6%**

Kozhikode, Kerala

2020 – 2022

Nanminda Higher Secondary School

10th Standard (SSLC) — **Percentage: 100%**

Kozhikode, Kerala

2019 – 2020

EXPERIENCE

UI Development Intern – SwarmLens

SwarmLens Pvt. Ltd.

Kochi, Kerala

2025

- Worked on UI development tasks and collaborative software development activities
- Gained exposure to professional development workflows and team-based project environments
- Improved understanding of frontend development and software engineering practices

SKILLS

Programming Languages: C, Java, Python, JavaScript

Web Technologies: HTML, CSS, React

Database: MySQL

Tools & Platforms: Git, GitHub, VS Code

Cloud Technologies: Google Cloud Basics

Concepts: Object-Oriented Programming, Problem Solving

Soft Skills: Teamwork, Communication, Collaboration

PROJECTS

KTU Activity Point Calculator Portal — *Personal Mini Project*

2025

React, HTML, CSS, JavaScript, Node.js, Express • Live Demo: clawhub.ai/veda1823/veda-greetings

- Developed a responsive web portal for calculating and managing KTU activity points
- Designed Admin, Teacher, and Student interfaces with responsive UI components
- Implemented dashboard layouts, upload modules, and frontend pages using React and CSS
- Worked with Node.js and Express for backend routing and application functionality
- Used Git and GitHub for version control and collaborative development; deployed on Vercel

Sign Language Detector — *Python, OpenCV, MediaPipe*

- Built a real-time sign language detection system using Python, OpenCV, and MediaPipe
- Implemented hand gesture recognition and landmark tracking for accurate detection
- Integrated text-to-speech functionality to convert gestures into spoken output
- Designed an assistive solution to improve accessibility and human-computer interaction

Hostel Allocator — *SQL, DBMS, MySQL*

- Developed a hostel management system for student registration and room allocation
- Implemented room management and occupancy tracking using a relational database
- Automated allocation processes to improve efficiency and reduce manual errors
- Created an admin dashboard for monitoring hostel occupancy and student records

CERTIFICATIONS & EVENTS

- Completed NPTEL Programming in Java certification offered by IIT Kharagpur
- Completed End-to-End Project Lifecycle using MERN Stack course conducted by Zero Pixels Technologies
- Completed Web Development Internship conducted by QnaydS LLP
- Completed 100xDevs Web Development + DevOps
- Achieved Silver League in Google Cloud Skills Boost
- Participated in IEEE Techsortium 2025
- Participated in IEEE YESS'24 (Yearly Engineering Students Summit)
- Participated in IEEE Techsortium Cloud Computing Workshop
- Participated in Tathva'23 conducted by NIT Calicut
- Completed Cambridge Linguaskill English Assessment (CEFR Level B1)
