VEDALAKSHMI B S

Kochi, Kerala • +91 8129972212 • vedalakshmi777@gmail.com • Portfolio • LinkedIn • GitHub • LeetCode • Codeforces • Google Skills

PROFESSIONAL SUMMARY

High-achieving Computer Science undergraduate (**9.04 CGPA**) with hands-on experience in full-stack web development, UI engineering, and LLM API integrations. Skilled in JavaScript (React, Node.js), Python, Java, and SQL. Proven ability to build accessible software applications, optimize frontend performance, and deploy scalable tools in agile, team-based environments.

EDUCATION

B.Tech in Computer Science & Engineering | Muthoot Institute of Technology & Science **2023 – Present**
CGPA: 9.04 / 10.0
Higher Secondary (12th): Nanminda Higher Secondary School – **98.6%**
SSLC (10th): Nanminda Higher Secondary School – **100%**

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C, HTML/CSS, SQL (MySQL)
Frameworks & Libs: React.js, Node.js, Express.js, OpenCV, MediaPipe
Tools & Cloud: Git, GitHub, VS Code, Vercel, Postman, Google Cloud Basics
Core Concepts: Full-Stack Web Development, RESTful APIs, Object-Oriented Programming (OOP), Relational Databases

PROFESSIONAL EXPERIENCE

UI Development Intern | SwarmLens Pvt. Ltd. (Kochi, Kerala) **Jan 2025 – Present**
- Developed responsive user interfaces and modular frontend components using modern web technologies.
- Collaborated with cross-functional software teams following version control workflows and agile practices.
- Optimized frontend elements to enhance application responsiveness, load performance, and user experience.

PROJECTS

AskSphere – AI-Driven Q&A Platform *Node.js, Express.js, Groq API, JavaScript, REST API*
- Engineered a low-latency interactive Q&A web application integrating the Groq API for real-time LLM inference.
- Built scalable Express.js backend endpoints to manage client requests and ensure low query response times.
- Implemented system validation and payload handling for edge-case error prevention and smooth API performance.

KTU Activity Point Calculator Portal *React.js, Node.js, Express, CSS, Vercel*
- Developed a full-stack web application featuring distinct interfaces for Admins, Teachers, and Students.
- Integrated automated calculation utilities, secure dashboard layouts, and document upload modules.
- Configured backend routes in Express and deployed the application on Vercel for public web access.

Real-Time Sign Language Detector *Python, OpenCV, MediaPipe, Text-to-Speech*
- Built an assistive computer vision application to detect and classify hand gestures in real time.
- Leveraged MediaPipe for landmark tracking and hand tracking model extraction.
- Integrated a Text-to-Speech engine to instantly convert recognized hand gestures into spoken audio output.

Hostel Allocation Management System *MySQL, Relational Databases, SQL*
- Designed a relational database architecture to automate room assignments and track student occupancy.
- Developed an administrative reporting dashboard to manage room capacities and reduce allocation errors.

GRIEVE – Grievance Redressal System *PHP, Laravel, MySQL, HTML, CSS, JavaScript*
- Developed a web-based platform enabling users to submit, track, and manage grievances efficiently.
- Implemented user and admin modules with complaint status tracking and centralized grievance management.

CERTIFICATIONS & ACHIEVEMENTS

Certifications: NPTEL Programming in Java (IIT Kharagpur), 100xDevs Web Development + DevOps, End-to-End MERN Stack Lifecycle (Zero Pixels), Google Skills Public Profile.
Achievements & Events: Google Cloud Skills Boost (Silver League), IEEE YESS'24, IEEE Techsortium Cloud Computing Workshop, Tathva '23 (NIT Calicut), Cambridge Linguaskill English Assessment (CEFR B1).
